

The On-Site Sewage Inspection Rebate Program – How it Works

Public Health Seattle King County (PHSKC) now has grant funds from the Washington State Department of Health to offer a limited number of \$100 rebates for septic system inspections and/or the installation of inspection ports and/or preparation of a record drawing of the septic system if necessary. To participate you need to:

1. Have a private residence in the Vashon-Maury Island Marine Recovery Area.
2. Have the eligible work performed by a PHSKC certified maintenance provider (call 206-296-4932 or <http://www.kingcounty.gov/healthservices/health/ehs/wastewater/pros/list.aspx>)
3. Pay for the services and keep your receipt paid invoice.
4. Submit this application with documentation of the work done to PHSKC.
5. Applications will be processed for payment at the end of each fiscal quarter.

Conditions that Apply:

1. One rebate per inspection and/or installation of inspection port and/or preparation of record drawing if necessary; up to \$300 per property.
2. Rebate for work done only after July 1, 2010.
3. Rebate not allowed for pumping of tanks.
4. For private residences only.
5. Rebates will be funded in the order received; first come – first paid up to the limit of available grant funding.
